Project Condition Surveys New York

Federal Navigation Project Project Operations and Infrastructure Stewardship

FACT SHEET**AUGUST 2007**

DESCRIPTION: This project consists of performing hydrographic surveys of completed and federally maintained Federal Navigation Projects within the boundaries of the New York District in order to publish their navigation condition for users of the channels.

AUTHORIZATION: Public Law 85-480, approved July, 2, 1958 authorizes the Chief of Engineers to publish information, including condition surveys, that may be of value to the general public.

STATUS: Surveys of approximately 24 federally maintained channels, inlets and anchorages within, approaching and surrounding New York Harbor are planned for Fiscal Year 2007. Selection of which projects to survey and scheduling of surveys is based upon channel usage, shoaling rates and maintenance dredging schedules.

PROJECT COST: \$1,273,000 has been allocated for this project in Fiscal Year 2007
